**General Information**

**The University of Cambridge Institute for Sustainability Leadership**

The University of Cambridge Institute for Sustainability Leadership (CISL) is a globally influential Institute developing leadership and solutions for a sustainable economy.

Our Rewiring the Economy framework shows how the economy can be ‘rewired’, through focused collaboration between business, government and finance institutions, to deliver positive outcomes for people and environment in pursuit of the UN Sustainable Development Goals (SDGs).

For over three decades we have built individual and organisational leadership capacity and capabilities, and created industry-leading collaborations, to catalyse change and accelerate the path to a sustainable economy. Our Rewiring Leadership framework sets out our model for the leadership needed to achieve this.
Our interdisciplinary research engagement builds the evidence base for practical action, through a focus on six cross-cutting themes critical to the delivery of the SDGs: sustainable finance, economic innovation, inclusive development, natural capital, future cities and leadership.

What we do

- Build the leadership capacity of individuals to create the future we want through executive and graduate education.
- Develop the capability of organisations and regions to lead this transition through our advisory services and customised programmes.
- Our work is underpinned by multidisciplinary research and grounded in practitioner insights from exceptional people from business, policy, civil society and academia.
- Catalyse innovation and solutions through our business and policy leaders groups, and working with individual organisations.
- Facilitate collaboration and dialogue across conventional boundaries through our business and policy leaders groups.

Who we work with

Each year we work with business, government and finance leaders in over 250 organisations including consumer brands, global banks and national governments, attracting more than 1,200 delegates into our programmes. The Unilever Young Entrepreneurs Awards, delivered by Unilever and CISL, help young sustainability entrepreneurs achieve scale for impact.

Our core activities are supported by our Strategic Partners, a small group of leading businesses who commit funds and advice to ensure our work is focused on the most material challenges and on the areas of greatest potential impact.

A global Network for change

We have a leadership Network of over 8,000 senior leaders and practitioners from business, government and civil society who have an impact in every sector and on every continent.

Our work also draws upon an expert group of Fellows and Senior Associates, comprised of business leaders, academics and other influential thinkers who have direct experience of working to address sustainability challenges.

HRH The Prince of Wales is our Royal Founding Patron and has inspired and supported many of our initiatives including The Prince of Wales Global Sustainability Fellowship Programme, The Prince of Wales’s Business & Sustainability Programme, and The Prince of Wales’s Corporate Leaders Group.

Where we work

We operate in countries across six global regions – UK and Europe, sub-Saharan Africa, Latin America, Asia and the Middle East. We have offices in Cambridge, Brussels and Cape Town, with delivery partners in Beijing, Chile, Melbourne and the UAE.
The University of Cambridge

The University is one of the world's leading academic centres. It comprises 150 faculties and departments, together with a central administration and other institutions. Our institutions, museums and collections are an excellent resource for researchers, students and members of the public representing one of the country’s highest concentrations of internationally important collections.

The University has an annual income of £1.66 billion. Research income, won competitively from the UK Research Councils, the European Union (EU), major charities and industry, exceeds £400 million per annum and continues to grow. The Colleges and the University remain committed to admitting the best students regardless of their background and to investing considerable resources in both widening access and financial support.

The 31 Colleges are self-governing, separate legal entities that appoint their own staff. Many academic staff are invited to join a College as a Teaching Fellow, which provides a further social and intellectual dimension. The Colleges admit students, provide student accommodation and deliver small group teaching. The University awards degrees and its faculties and departments provide lectures and seminars for students and determine the syllabi for teaching and conducting research.

The University’s estate is undergoing the most significant transformation in its history. Cambridge has been able to create a new science and technology campus to the west of the city centre, and is now expanding further to the north west of Cambridge including investing in affordable homes for University key workers and community facilities. Even with our continued development, the University remains within walking or cycling distance across the campus. The University is a major partner on the Cambridge Biomedical Campus and we continue to redevelop our historic city centre sites demonstrating our determination to ensure that we can offer the best facilities and opportunities for our staff and students.

Our instinct for seeking out excellence and setting up enduring and mutually beneficial collaborations has led us to establish strategic partnerships across the globe. Whether it is the successful Cambridge-Africa Programme involving universities in Ghana, Uganda and elsewhere on the African continent; or the close association with the government of India to pursue new research in crop science; or the creation, with Germany’s Max Planck Institutes, of a Cambridge-based centre for the study of ethics, human economy and social change – international partnerships are now an inextricable part of the University’s make-up.

There is much more information about the University at http://www.cam.ac.uk/univ/works/index.html that we hope you will find helpful.

These include face-to-face sessions, online learning modules and webinars. Employees may also apply for financial support to undertake training that will lead to a qualification. We offer reduced staff fees for University of Cambridge graduate courses and the opportunity to attend lectures and seminars held by University departments and institutions. The CareerStart@Cam programme also supports employees in assistant staff roles who do not hold higher education qualifications to develop their skills, experience and qualifications.

**Equality of Opportunity at the University**

We are committed to a proactive approach to equality, which includes supporting and encouraging all under-represented groups, promoting an inclusive culture and valuing diversity. We make selection decisions based on personal merit and an objective assessment against the criteria required for the post. We do not treat job applicants or members of staff less favourably than one another on the grounds of sex (including gender reassignment), marital or parental status, race, ethnic or national origin, colour, disability (including HIV status), sexual orientation, religion, age or socio-economic factors.

We have various diversity networks to help us progress equality; these include the Women’s Staff Network, the Disabled Staff Network, the Black and Minority Ethnic Staff Network and the Lesbian, Gay, Bisexual and Transgender Staff Network. In addition, we ranked in the top 100 employers for lesbian, gay and bisexual (LGB) staff in Stonewall’s Workplace Equality Index 2013 and we hold an Athena SWAN silver award at organisation level for promoting women in Science, Technology, Engineering and Medicine.
