### Role summary

The University of Cambridge Institute for Sustainability Leadership (CISL) is a globally influential institute within the University of Cambridge, developing leadership and solutions for a sustainable economy. The Sustainable Infrastructure Researcher, with a focus on Financing Sustainable Infrastructure, will help to support and maintain CISL’s national and international reputation as a thought leader in sustainability leadership. The role holders’ contribution to excellence in research will be at the level of an experienced and skilled researcher demonstrating a high level of competence and an independent standing in research.

Based in CISL’s Cambridge office, the role holder will be responsible for conducting academic and applied research as well as coordinating with CISL’s external stakeholders on the financing of sustainable infrastructure. More specifically, they will contribute to CISL’s work on the Future Dams project. The role holder will work closely with the Senior Research Associate Future Dams, who will lead CISL’s contribution to the project. This will include:

- all administrative responsibilities;
- undertaking academic and applied research;
- contributing to the delivery of the key academic outputs;
- coordinating with CISL’s external (finance sector) stakeholders on applied outputs;

The roles responsibilities split between 40% research, 20% dissemination, and 40% project administration.

### Future Dams

The Future Dams project will explore how global capital flows (i.e. public and private capital) can influence the emergence of more sustainable dam infrastructure. The role holder will be responsible for contributing to three streams of activities:

1. **Conduct a review of risks and opportunities of financing sustainable infrastructure**
   
   This stream will involve mapping of the interest groups currently engaged in public and private financing of sustainable infrastructure with the spotlight on dams. Delivering an academic summary of financial frameworks inherent in financing sustainable infrastructure and a practitioner summary of financial instruments and risks of financing sustainable dams.
2. **Identify best practices promoting the financing of such infrastructure**
   This stream will involve coordinating and delivering a series of roundtables to initiate dialogue between a range of stakeholders on the strategies and methodologies for decreasing the cost of capital. The deliverables for this stream will include an academic conference paper and a business primer toolkit outlining the finance landscape of dams.

3. **Identify how metrics can align financing instruments with sustainable infrastructure**
   More specifically, it would look to understand how best-in-class modelling can integrate public/private finance into the dam development process as well as which metrics would improve communication between investors and ‘clients’ and attract private finance over short- to long-term time frames. This stream would involve organising a series of stakeholder roundtables to understand the relevant metrics and result in an academic paper on directing capital into sustainable infrastructure, spotlight on dams.

**Key responsibilities**

*This section details, but is not an exhaustive list, of the specific activities or obligations for which we require and hold the role accountable.*

### Research and sponsorship

- Develop research objectives and proposals for own or joint research;
- Conduct individual and collaborative research projects;
- Write up research work for presentation and publication;
- Continually update knowledge and understanding in field or specialism;
- Translate knowledge of advances in the subject areas into research activity;
- Manage own research and administrative activities, with guidance if required.
- Assist in the preparation of proposals and applications to external bodies, e.g. for funding and contractual purposes;
- Communicate material of a specialist or highly technical nature.

### Liaison and networking

- Liaise with colleagues and students;
- Build internal and external contacts, and participate in networks for the exchange of information and to form relationships for future collaboration.

### Planning and organising
• Plan the use of research resources, laboratories and workshops as appropriate;
• Plan and manage own research activity in collaboration with others;
• Contribute to planning of joint research projects led by principal investigator.

Teaching and support

• May assist in the teaching and learning programmes in the department
• May supervises postgraduate research students

Person profile
This section details the knowledge, skills and experience we require for the role.

Education & qualifications
• Holds a PhD in a relevant specialist subject.

Relevant experience
• Research experience.
• Possess sufficient breadth/depth of specialist knowledge in the financing of sustainable infrastructure and of research methods and techniques to develop research objectives, projects and proposals.
• Willing to continually update knowledge in the specialist area and engage in continuing professional development.
• Experience working with academics, business leaders, policy bodies, government, and/or non-profit sector partners.

Interpersonal & communication skills
• Experience of managing own workload, with the ability to work in a team, under supervision, as well as independently.
• Strong administrative skills to manage project/s including financial management.
• Strong communication and networking skills with an ability and willingness to travel to project meetings and dissemination activities, as required.
• Fluent in written and spoken English with a proven ability to write reports and presentations with appropriate grammar, spelling, punctuation and tone.
- Ability to generate new ideas and use own initiative.

### Additional requirements
- A demonstrable interest in sustainability and committed to the values that underpin CISL’s work.

### Terms and Conditions

### Screening Check Requirements
We have a legal responsibility to ensure that you have the right to work in the UK before you can start working for us. If you do not have the right to work in the UK already, any offer of employment we make to you will be conditional upon you gaining it. If you need further information, you may find the Right to Work page within the ‘Applying for a job’ section of the University’s Job Opportunities pages helpful.

### Application Process
To submit an application for this vacancy, please click on the link in the ‘Apply online’ section of the advert published on the University’s Job Opportunities pages. This will route you to the University’s Web Recruitment System, where you will need to register an account, if you have not already, and log in before completing the online application form.

If you have any questions about this vacancy or the application process, please contact the CISL Human Resources team at human.resources@cisl.cam.ac.uk.
General Information

The University of Cambridge Institute for Sustainability Leadership

The University of Cambridge Institute for Sustainability Leadership (CISL) is a globally influential Institute developing leadership and solutions for a sustainable economy.

Through leadership and collaboration between business, government and finance institutions, we believe the economy can be ‘rewired’ to deliver positive outcomes for people and the environment.

We support this by:
- Building the leadership capacity of individuals
- Developing the capability of organisations
- Facilitating collaboration and dialogue across conventional boundaries
- Catalysing innovation and solutions
- Building the evidence base for action

Each year we work with business, government and finance leaders in over 250 organisations and more than 1,200 individuals complete one of our graduate or executive programmes.

We have a leadership network of over 8,000 senior leaders and practitioners from business, government and civil society who have an impact in every sector and on every continent. Their experience and insights shape our work, which is underpinned by multidisciplinary academic research.

Our activities span the breadth of sustainable development, with particular focus on six key areas critical to the transition to a sustainable economy:

1. **Sustainable finance** – How can we create a finance system that rewards long-term thinking?
2. **Economic innovation** – How will industries, jobs and markets evolve, and how should public policy and business ensure economic development is inclusive and sustainable?
3. **Inclusive development** – How can companies become agents of improved health and livelihoods, whilst providing more equitable access to income and opportunity?
4. **Natural capital** – How can companies sustain the natural world and its resources through their strategies and operating practices?
5. **Future cities** – How can cities develop vibrant communities of healthy people, supported by clean, green energy, food, water and transportation systems?
6. **Leadership** - How can individual and organisational leaders shape the economy to deliver positive sustainability outcomes, whilst ensuring successful and resilient organisations?

We operate across UK and Europe, sub-Saharan Africa, Latin America, Asia and the Middle East – with offices in Cambridge, Brussels and Cape Town, and delivery partners in Beijing and Melbourne.

HRH The Prince of Wales is our Royal Founding Patron and has inspired and supported many of our initiatives.

The University of Cambridge

The University is one of the world’s leading academic centres. It comprises 150 faculties and departments, together with a central administration and other institutions. Our institutions, museums and collections are an excellent resource for researchers, students and members of the public representing one of the country’s highest concentrations of internationally important collections.
The University has an annual income of £1.66 billion. Research income, won competitively from the UK Research Councils, the European Union (EU), major charities and industry, exceeds £400 million per annum and continues to grow. The Colleges and the University remain committed to admitting the best students regardless of their background and to investing considerable resources in both widening access and financial support.

The 31 Colleges are self-governing, separate legal entities that appoint their own staff. Many academic staff are invited to join a College as a Teaching Fellow, which provides a further social and intellectual dimension. The Colleges admit students, provide student accommodation and deliver small group teaching. The University awards degrees and its faculties and departments provide lectures and seminars for students and determine the syllabi for teaching and conducting research.

The University’s estate is undergoing the most significant transformation in its history. Cambridge has been able to create a new science and technology campus to the west of the city centre, and is now expanding further to the north west of Cambridge including investing in affordable homes for University key workers and community facilities. Even with our continued development, the University remains within walking or cycling distance across the campus. The University is a major partner on the Cambridge Biomedical Campus and we continue to redevelop our historic city centre sites demonstrating our determination to ensure that we can offer the best facilities and opportunities for our staff and students.

Our instinct for seeking out excellence and setting up enduring and mutually beneficial collaborations has led us to establish strategic partnerships across the globe. Whether it is the successful Cambridge-Africa Programme involving universities in Ghana, Uganda and elsewhere on the African continent; or the close association with the government of India to pursue new research in crop science; or the creation, with Germany’s Max Planck Institutes, of a Cambridge-based centre for the study of ethics, human economy and social change – international partnerships are now an inextricable part of the University’s make-up.

There is much more information about the University at http://www.cam.ac.uk/univ/works/index.html that we hope you will find helpful.

What the University can offer you

We offer a comprehensive reward package to attract, motivate and retain high performing staff at all levels and in all areas of work. The University offers a wide range of competitive benefits, from family leave entitlement, to shopping and travel discount schemes. Our generous annual leave package contributes to the positive wellbeing of our University employees. Sabbatical leave enables academics to focus on research and scholarship, whilst still maintaining their full salary. The University also has a career break scheme for academic and academic-related staff, with additional flexible working policies for all other staff.

CAMbens employee benefits

We offer a CAMbens scheme for University employees, providing access to online and in-store shopping discounts and cashback. With more than 2,000 participating retailers, employees can save money on a wide range of household expenses, from groceries and clothes, to holidays and insurance and much more. A range of local discounts are also available, helping employees to save money whilst also supporting local Cambridge businesses. CAMbens Cars and CAMbens Cycle to Work salary sacrifice schemes are also available, which enable employees to save money on transport costs. A 10% discount rate on the purchase of train season tickets, bulk buy tickets and an interest free travel to work loan are also available for staff of the University of Cambridge.

Family-friendly policies
The University recognises the importance of supporting its staff. We have a range of family-friendly policies to aid employees’ work-life balance including a generous maternity, adoption and shared parental leave entitlement of 18 weeks full pay and emergency family care support via My Family Care. In addition, our Ofsted rated ‘outstanding’ workplace nurseries, childcare vouchers, a childcare salary sacrifice scheme and a high quality holiday play scheme are available to help support University employees with caring responsibilities. The Newcomers and Visiting Scholars Group is an organisation within the University run by volunteers whose aim is to help newly arrived wives, husbands, partners and families of Visiting Scholars and members of the University to settle in Cambridge and give them an opportunity to meet local people.

Your wellbeing
The University’s Sport Centre, Counselling Services and Occupational Health are just some of the support services available to University employees to promote their physical and mental wellbeing. There are many societies in Cambridge catering for almost every taste and interest. Whether you want to take part in a sport, participate in music or drama, pursue a hobby, or join a political group, you will almost certainly find that a society exists for this purpose.

The University also hosts the Cambridge Science Festival and Cambridge Festival of Ideas, as well as Open Cambridge weekend, which together attract over 50,000 visitors per year. The festivals are a great opportunity to get your first taste of public engagement, through volunteering, supporting hands-on activities or proposing a talk.

Pay and benefits
The University salary structure includes automatic service-related pay progression in many of its grades and an annual cost of living increase. In addition to this, employees are rewarded for outstanding contribution through a number of regular pay progression schemes. The University offers attractive pensions schemes for employees, with an additional benefit of a salary exchange arrangement providing tax and national insurance savings. Payroll giving is also a simple, tax-efficient way for employees to donate to charity.

Relocating to Cambridge
The University Accommodation Service exists to help employees in their search for a rental home in Cambridge. A new University development at North West Cambridge called Eddington offers subsidised rented accommodation to University staff. The development consists of high quality furnished one and two bedroom apartments. For more information about the development and how to apply please visit the website www.nwcambridge.co.uk

Equality & diversity
The University has a vibrant and varied community. We support and encourage under-represented groups and we value diversity. We welcome applications from individuals with disabilities. Our recruitment and selection procedures follow best practice. We have an Equal Opportunities Policy, along with a range of diversity networks for women, black and minority ethnic and lesbian, gay, bisexual and transgender staff. More details are available here: http://www.equality.admin.cam.ac.uk/

Development opportunities
We support new employees to settle in through various activities. The encouragement of career development for all staff is one of the University’s values and we put this into practice through various services and initiatives. Our Personal and Professional Development Department provides development opportunities and courses for all University employees. These include face-to-face sessions, online learning modules and webinars. Employees may also apply for financial support to undertake training that will lead to a qualification. We offer reduced staff fees for University of Cambridge graduate courses and the
opportunity to attend lectures and seminars held by University departments and institutions. The CareerStart@Cam programme also supports employees in assistant staff roles who do not hold higher education qualifications to develop their skills, experience and qualifications.

**Equality of Opportunity at the University**

We are committed to a proactive approach to equality, which includes supporting and encouraging all under-represented groups, promoting an inclusive culture and valuing diversity. We make selection decisions based on personal merit and an objective assessment against the criteria required for the post. We do not treat job applicants or members of staff less favourably than one another on the grounds of sex (including gender reassignment), marital or parental status, race, ethnic or national origin, colour, disability (including HIV status), sexual orientation, religion, age or socio-economic factors.

We have various diversity networks to help us progress equality; these include the Women's Staff Network, the Disabled Staff Network, the Black and Minority Ethnic Staff Network and the Lesbian, Gay, Bisexual and Transgender Staff Network. In addition, we ranked in the top 100 employers for lesbian, gay and bisexual (LGB) staff in Stonewall's Workplace Equality Index 2013 and we hold an Athena SWAN silver award at organisation level for promoting women in Science, Technology, Engineering and Medicine.

We are supportive of staff with caring responsibilities, such as through our flexible working, career break and returning carer’s schemes. We encourage individuals to include details of any breaks in employment due to caring responsibilities in applications for employment so that these can be taken into consideration in assessments made, where appropriate.

**Information if you have a Disability**

The University welcomes applications from individuals with disabilities and we are committed to ensuring fair treatment throughout the recruitment process. We will make adjustments to enable applicants to compete to the best of their ability wherever it is reasonable to do so, and, if successful, to assist them during their employment. Information for disabled applicants is available at [http://www.admin.cam.ac.uk/offices/hr/staff/disabled/](http://www.admin.cam.ac.uk/offices/hr/staff/disabled/).

We encourage you to declare any disability that you may have, and any reasonable adjustments that you may require, in the section provided for this purpose in the application form. This will enable us to accommodate your needs throughout the process as required. However, applicants and employees may declare a disability at any time.

If you prefer to discuss any special arrangements connected with a disability, please contact the CISL Human Resource, who are responsible for recruitment to this position, on +44 12237 68814 or by email on human.resources@cisl.cam.ac.uk.
