Bursaries are normally awarded to self-funding individuals, applicants from SMEs, the public sector, NGOs, or developing countries.	Currently no bursary funding is available via CISL. Possible sources of external funding are listed on our website .	Limited bursary funding is available for deserving candidates who are prevented from applying due to financial reasons. Bursaries are normally awarded to self-funding individuals, applicants from SMEs, the public sector, NGOs, or developing countries. Value chains stream only: A discounted rate is available for group applications.

	the Worshipful Company of Chartered Surveyors Scholarship for candidates committed to sustainability in the built environment. A limited number of bursaries for a 10-30% reduction in course fees are offered on a competitive need basis.				
Accreditation**	180 CATS points at level M	180 CATS points at level M	120 CATS points at level M	60 CATS points at level M	60 CATS points at level M

* Under normal circumstances, it is compulsory to attend workshops in-person in Cambridge; however, if this is not possible due to verifiable COVID-19 pandemic-related restrictions, then online participation will be accommodated until the end of 2022. If it becomes necessary due to pandemic-related requirements mandated by the UK government and/or University, all or part of workshops may be delivered fully online. Full participation during core hours (typically 09.30 – 16.00 UK time) is still compulsory. CISL is well equipped to deliver dynamic and engaging workshops remotely, should the situation demand.

**CATS points refers to the Credit Accumulation and Transfer Scheme. It may be possible to transfer the CATS points to Level M programmes of other higher education institutions. As institutions vary on their policies of accepting transferred credits you should contact your preferred institution for further advice.

Course emphasis and format

Focus:	<u>Interdisciplinary Design for the Built Environment (IDBE)</u>	<u>Sustainability Leadership (Business perspective)</u>	<u>Sustainable Business</u>	<u>Interdisciplinary Design for the Built Environment (IDBE)</u>	Sustainable Business (<u>Organisational stream</u> and <u>Value chains stream</u>) (<u>PCSB</u>)
Course emphasis	Building leadership capacity amongst diverse built environment professionals for strategic and evidence based decision-making and inventive and creative problem solving in interdisciplinary teams.	Specific leadership responses to complex sustainability challenges and opportunities in a business context, and building leadership capacity to think creatively, holistically and systemically.	Same as for PCSB, and in addition, also provides an opportunity to take 'deeper dives' into topical and emergent leadership responses to sustainability in a business context.	Equip built environment professionals to respond to complex sustainability challenges with a focus on individual and interdisciplinary actions and agency as a predictor of project outcomes.	Equipping individuals to embed sustainability in their business context and catalyse system-level change.
Who would benefit?	Mid-career professionals involved in the financing, commissioning, design, assessment, construction and management of	Mid-career, current and aspiring leaders who want to develop their capacity to drive the business response to sustainability challenges, drawing on the research	Mid-career professionals who wish to enhance their existing knowledge and gain a higher qualification through practical assignments rather than a research dissertation.	Mid-career professionals involved in all aspects of the built environment who wish to gain a broad and action-oriented introduction to	Mid-career professionals who wish to gain a broad and action-oriented introduction to sustainability in a strategic business context.

	projects in the built environment who want to develop their capacity to deliver sustainable project outcomes and mobilise complex and diverse interdisciplinary teams, drawing on the research excellence of the University of Cambridge	excellence of the University of Cambridge.		sustainability in the built environment as well as develop an understanding of effective interdisciplinary teamworking.	
Duration and format	<ul style="list-style-type: none"> • Part time over 2 years • 6 residential workshops in Cambridge*; each workshop is 6 days 	<ul style="list-style-type: none"> • Part time over 2 years • 24 days residential in Cambridge* via 4 workshops 	<ul style="list-style-type: none"> • Part time over 3 years (PCSB plus 2 years for stage 2) • 15 days residential in Cambridge* via workshops and Labs 	<ul style="list-style-type: none"> • Part time over 10 months • 12 days residential in Cambridge* via 2 workshops 	<ul style="list-style-type: none"> • Part time over 9 months • 8 days residential in Cambridge* via 2 workshops
Assessed work	<p>First year: Two industry-relevant individual assignments and a Group Project (typically 5–7 students), supported by a specialist course Tutor.</p> <p>Second year: 15,000-word research dissertation, under the direction of an academic Supervisor.</p>		<p>Stage 1: As per assignments for PCSB</p> <p>Stage 2: Two individual assignments supported by a course Supervisor.</p>	Two business relevant individual assignments and a Group Project (typically 5–7 students), supported by a specialist course Tutor.	
College membership and award of degree	Students become full members of a Cambridge College and can attend a University graduation ceremony at the Senate House.		Students are members of the University of Cambridge, but are not full members of a Cambridge College. Residential workshops are held in a range of Cambridge Colleges and Institutions, and an Award Ceremony at a Cambridge College is offered to candidates who wish to receive their certificate in person.		
Transfer between programmes	Alumni of the PG Cert IDBE can apply. If accepted,	Alumni of PCSB (organisational or value chains streams,	Alumni of PCSB (organisational or value chains streams,	Alumni can apply to attend the MSt IDBE. If accepted,	Individuals who have completed PCSB (organisational or value chains stream, since 2008) can use the credit
