How do Banks Finance Commodity Supply Chains?

And how could they support the growth of sustainable production?

This infographic draws on the work of the Banking Environment Initiative (BEI), which is convened and coordinated by CISL. The BEI's 'Soft Commodities' Compact with the Consumer Goods Forum (CGF) aims to align the banking industry's services with the CGF's goal to help achieve zero net deforestation by 2020, and has so far been adopted by banks representing over 20% of the market for international financing of agricultural commodities.*
